Subject: Letter of acknowledgement for completion of the Small Grants Ambassador Fund project titled "Strengthening Policy and Strategic Planning Unit (PSPU) for Coordinated Public-Private Health Initiatives in Punjab"

Dear Mr. Ali,

This letter is to acknowledge that Nur Center for Research and Policy (NCRP) has successfully completed the Project titled "Strengthening Policy and Strategic Planning Unit (PSPU) for Coordinated Public-Private Health Initiatives in Punjab" awarded under USAID Small Grants and Ambassador's Fund Program (SGAFP - www.sgafp.org.pk). The project duration was from 1st October 2015 till 31st May 2017.

Through this project NCRP worked on promoting coordinated engagement amongst Government partners, donors, NGOs, health professionals and other stakeholders to improve the health services delivery in Punjab Province. This was done through reviews of international best practices in health services and inclusion of health policy fundamentals in political manifestos in collaboration with PSPU.

I deeply appreciate the unwavering commitment of the management and staff of NCRP for seamless execution of the project in line with approved scope of work and implementation schedule. I also appreciate the interest of NCRP in working with USAID Small Grants and Ambassador's Fund Program to further enhance its important contributions to advancing Pakistan's development. I hope the project will contribute to building momentum and developing consensus amongst all concerned stakeholders in this regard.

Sincerely,

Mazhar Iqbal
Deputy Chief of Party
USAID Small Grants and Ambassador's Fund Program
